

## 2022 Martini Newsletter

The annual Reunion of the Charles & Eva Martini family was held on Sunday, August 22, 2021 at Fernbank Park on the Ohio. There was a large turnout despite a very warm day. The families of Uncles Epp and Andy did a great job as usual in providing lots of activities for everyone including games and crafts for the little ones and the usual games for the adults. Despite the occasional river breeze and several large fans, the heat got to me and I ended up leaving early so the following information was provided by my self-proclaimed "Secretary", Arlene! Thanks, Sis!

I think two tiny ones should share the title of youngest ones present as they were so close in age!! They are Shaun (7/21), son of Cathy and grandson of Rosemary and Lucas (7/26), son of Hannah and great-grandson of Mike & Mary Ann. Our Max took over as the oldest one present, a title which Paul had claimed for several years. The brother/sister duo of Jessica Johnston & Brandon Martini were Corn Hole Champs while aunt/niece team of Arlene & Terry Haney won the egg toss with a bouncy, no-breaking egg!:) Margie correctly guessed 255 pieces and so took home the large Martini glass filled with candies.

The CUZ had their usual activities throughout the year. Margie & Jeanne started off the Christmas season by hosting a delicious brunch followed by themed games and a White Elephant exchange which is always fun & interesting. It's true that "one person's trash is another's treasure!" The summer picnic was cancelled once due to the heat and when rescheduled, Margie generously offered her lovely new home as an alternate to the park for the same reason. Secret Cousins were revealed and new ones chosen for the coming year. It's great that we keep in touch this way and also via the monthly lunches.

\*As usual, I sincerely appreciate the quick and many responses to my request for news and updates; couldn't do this w/o them.

JOE: Joe says everything's the same with them and hello to all. He added he's still kicking at 92☺ Take care and keep doing what you're doing, Joe!

FRANK: Only good news from this front ~ the weddings of Bob's granddaughter, Katie Knochelmann to Tyler Wichmann on 10/22/21 and Joe's granddaughter, Kayla Brennan to Robert Colon on 7/16/22. Best wishes to the newlyweds!

CHARLEY: It was great that we had our reunion over Labor Day weekend. About 48 were able to attend but distance and other commitments prevented others from coming. Chic continues to deal with his chemo regime which everyone knows can be rough so prayers are still appreciated. He and Claire are expecting their first grandchildren

Lou's granddaughter, Carley, is on Seton's golf team; he enjoys going to her tournament play and also playing. Seems our family is well represented at Seton! He said there's nothing else exciting in his family.

Jeanne & Frank's family continues to flourish! Daughter Lori was married to Jake Tierney on 5/21/22. An added bonus is his daughter, Dallis!

Ray, Mike, Tim, Mike Reilmann, Margie & Denny report all is well with their families.

PHIL: Phil and Mary Louise had no news to report.

At our luncheon, the CUZ were discussing the upcoming reunion and ways to simplify it for the host family. Many families are down to one or two on whom the responsibility falls. One suggestion is to eliminate all games except for corn hole and the ever favorite egg toss!! It is difficult to plan especially for children's games as one never knows how many will be in attendance. This would begin with the '23 reunion which just happens to be our turn ~ Charley's family. Any/all suggestions are welcome; just relay them to one of the CUZ and we'll figure out if and/what changes should be implemented. The bottom line is we aren't getting any younger and at some point this may come to an end as our children become more involved with their own families.

SO, we come to the end of another report. As always, I appreciate your input and also the kind words and prayers for Chic. I will send out the family tree when additions and corrections are made. Please let me know when you find errors in it as the old mind and fingers don't work as well as they used to and proof reading one's own work doesn't always go so well!!

Until next time, I'll leave you with something to think about:

"Memory is what you forget with"!

Also came across the following which I thought was interesting, maybe you will too!  
Have a Good Year! Take Care and God Bless.

*Later. Love. L*

## Ancestral Mathematics

In order to be born, you needed:

2 parents  
4 grandparents  
8 great-grandparents  
16 second great-grandparents  
32 third great-grandparents  
64 fourth great-grandparents  
128 fifth great-grandparents  
256 sixth great-grandparents  
512 seventh great-grandparents  
1,024 eighth great-grandparents  
2,048 ninth great-grandparents

For you to be born today from 12 previous generations, you needed a total of 4,094 ancestors over the last 400 years.

Think for a moment – How many struggles? How many battles? How many difficulties? How much sadness? How much happiness? How many love stories? How many expressions of hope for the future? – did your ancestors have to undergo for you to exist in this present moment...
